To,

The Head of Department,

Artificial Intelligence

Samrat Ashok Technological Institute, Vidisha (M.P.)

Date: _____

Subject: Application for Major Project Approval

Respected Sir,

We, the students of Artificial Intelligence and Data Science, currently in the 7th semester, propose to work on a project titled "Smart Civic Issue Detection and Resolution System" and kindly request for assessment of a project guide to support us.

Project Guide: Prof. Usha Tigga

Project ID: AI2025TID04

Project Name: Smart Civic Issue Detection and Resolution System

Team Members:

Nidhi Hingwe (0108AI221034)

Pragya Sirse (0108AI221041)

In this project, we aim to design and develop a smart system that identifies, classifies, and reports civic issues such as potholes, waste accumulation, and streetlight failures. The project will leverage computer vision, AI-based detection models, and a reporting platform to facilitate better communication between citizens and authorities for timely resolution of urban problems.

For the successful completion of this project, we kindly request you to grant us approval to work under the guidance of the assigned project guide.

Thank you.

Yours sincerely,

Nidhi Hingwe

Pragya Sirse
